Profile

Versatile creative with extensive experience developing, managing and executing creative strategy for multimedia marketing campaigns across FMCG and personal care brands. My work covers art direction, brand communication, packaging and audio-visual production for digital, print and OOH advertising. I currently lead AI-assisted content production for a multi-brand skincare portfolio, pairing generative image and video tools with hands-on post-production to deliver commercial-grade social content at pace. Comfortable presenting to senior stakeholders, managing agencies and print vendors, and keeping creative output tied to real engagement and sales results.

Key Achievements

- **Cowbell Chocolate “Get Up N Go” Promo:** Led the creation of the full communication suite, including the campaign logo, print ads, digital content and audio-visual materials, lifting the promo's visibility and engagement across every channel it ran on.
- **Cowbellpedia:** Designed branding assets for students and contestants, from wearables to POSMs, and conceptualised the audio-visual communications that gave the initiative a cohesive brand narrative.
- Grew social media traction by 30% across eight brands by introducing art direction strategies aligned with contemporary design trends.
- Cut 45% from the marketing budget by streamlining the visual communication process and finding cost-effective design solutions.

Professional Experience

TopwideCare, Lagos

Senior Brand Designer (Feb 2026 – Present)

- Own creative direction across three skincare brands — Astro (premium), LovSkin (mid-range) and Miracle White (mass market) — keeping each brand's identity distinct and consistent across packaging, social media and trade materials.
- Built the company's AI-assisted video production pipeline: anchor stills generated with GPT-image-1, animated in Google Veo 3.1, then finished in After Effects and CapCut with copy overlays and brand lockups.
- Write and produce an ingredient-education video series (“How Your Skincare Actually Works”) for Instagram and TikTok, turning skincare science into short-form content people actually save and share.
- Directed a full commercial production package for Astro Anti-Acne Body Lotion on Instagram Reels, covering model scenes, on-screen stat treatments and voiceover direction with an authentic Lagos delivery.
- Develop and refine structured generation prompts for image and video models, iterating on motion physics, texture and composition until outputs read as professionally shot advertising.
- Run TikTok trade outreach: screening multi-brand skincare retailers across Anambra, Port Harcourt and Benin City against strict engagement criteria, then managing the partner pipeline from first contact through gifting and posted content.
- Guide external print vendors on new product packaging so the visual identity holds from artwork to shelf.

Tropical General Investments Group (TGI), Lagos

Assistant Manager, Brand/Creative *(Feb 2024 – Sept 2025)*

- Led the creative development and management of the brand's online and offline identity.
- Conceptualised and implemented brand communication strategies, sponsorships and event plans to grow brand equity, sales and profitability.
- Collaborated with third-party agencies to keep output aligned with brand standards and objectives.
- Oversaw the development of original content, from visual design through production, ensuring consistency across channels.

Promasidor, Lagos, Nigeria

Creative Specialist *(Feb 2019 – Feb 2024)*

- Managed the creative team responsible for ideating and executing OOH and digital advertisements across multiple brands.
- Created and repackaged visual communication materials for the Dairy and Beverage brands, keeping print and digital formats consistent.
- Worked closely with stakeholders, including the CEO, to present creative work, manage agency relationships and track project budgets.

Creative Designer / Social Media Executive *(Oct 2017 – Feb 2019)*

- Developed and executed social media and advertising campaigns across platforms, driving a 20% increase in brand engagement.
- Designed packaging, POS materials and visual assets for promotional campaigns, maintaining brand consistency throughout.
